Financial Analyst - Job ID: 12936
Livonia, MI
Remove Post: July 13, 2018

At Roush, we fuse technology and engineering to provide product development solutions to customers in a diverse range of industries. Widely recognized for providing engineering, testing, prototype, and manufacturing services to the transportation industry, Roush also provides significant support to the aerospace, defense and theme park industries. With over 4,000 employees in facilities throughout the United States, Europe, Asia, and South America, our unique combination of creativity and tenacity activates big ideas on a global stage. We want motivated, ambitious people who put the needs of our customers first, bring creativity to their work and will do whatever it takes to achieve success. If you share our passion for providing innovative solutions to complex challenges, we want you on our team.

Are you a Financial Analyst looking for a dynamic company to join? Roush is searching for a Financial Analyst to join our team. This would be a great opportunity for a person within the beginning stages of their professional career! This person will prepare financial statements and prepare monthly reports for management (including coordinating data from cross-functional teams) to present to the management teams for approvals. The Financial Analyst will also evaluate financial metrics (return on investment, cash flow, break-even analysis, etc.) on new proposed investments and historical performance on existing investments. Other responsibilities will include, creating templates and models to accommodate evaluations on various strategic initiatives and assisting in preparing annual budgets and monthly forecasts. This position will be located in our Livonia, MI facility.

Qualifications:

- Bachelor's degree in finance or accounting
- 3 months to 5 years' experience in a financial role (internship / coop experience will be considered)
- Experience putting together and presenting financial presentations and analyses for management
- Possesses the analytical skills to put together reports and communicate/interpret the reports for others
- Possesses problem solving skills and demonstrates the ability to think outside of the box
- Detail-oriented and accurate
- Capacity to work in a fast-paced environment and handle multiple assignments with a high-level of quality
- Strong communication skills with an ability to work with a cross-functional staff
- Excellent computer skills, with strong proficiency in MS Excel and PowerPoint

Preferred Skills:

- Experience in the manufacturing or automotive industry
