## 2. Reserve Affiliation and Reserve Component Counselors at Installations

  - Selected Reserves
  - Inactive National Guard
  - Individual Ready Reserve (IRR)

**NOTE:** This is a Common Career Readiness Standard (CRS) required for Active Component Service members only (Continuum of Military Service Opportunity Counseling)

- Briefing provided during TAP GPS Workshop

## Selected Reserve

- The Selected Reserve (also called SELRES, or SR) are members of a U.S. military Ready Reserve unit that are enrolled in the Ready Reserve program and the Reserve unit they are attached to.
- You may voluntarily affiliate with the Selected Reserve, either with a National Guard or Reserve unit or a Reserve individual program.
- Upon becoming a member of the Selected Reserve, you may be recalled to active duty in time of war or national emergency. You may also be ordered to active duty involuntarily for up to 270 days, for any single contingency operation, without a declaration of a national emergency.
- You will participate and train as required by the Reserve category to which you belong. For National Guard and Reserve unit programs, this usually means a minimum of one weekend a month and two weeks of annual training per year. For Reserve individual programs, the training requirement may be somewhat less.

## Inactive National Guard

- If you served in the Army, you may become a member of the Army National Guard and request transfer to the Inactive National Guard if unable to participate in regular unit training.
- Currently, only the Army maintains an Inactive National Guard. This consists of National Guard personnel in an inactive status, who are attached to a specific National Guard unit but do not participate in training.
- As a member of the Inactive National Guard, you would be recalled to active duty with your unit. To remain a member, you must muster once a year with your assigned unit.

## Individual Ready Reserve (IRR)

- If you do not affiliate with one of the above programs, your military Service branch will automatically assign you to the Individual Ready Reserve (IRR).
- IRR consists mainly of individuals who have had training and who have served previously in the Active Component. Other IRR members come from the Selected Reserve and have some of their military Service obligation remaining.
- IRR members may be involuntarily recalled upon declaration of a national emergency. Otherwise, participation requirements may include an annual day of muster duty to satisfy statutory screening requirements.
- IRR members may participate in voluntary temporary tours of active duty and military professional development education programs.

# Licenses

- Governmental agencies (federal, state, or local) grant licenses to individuals to practice a specific occupation, such as a medical license for doctors.
- State or federal laws or regulations define the standards that individuals must meet to become licensed. For these types of professions, licenses are typically mandatory.

# Certifications

- Certifications are different.  
Non-governmental agencies, associations, and even private sector companies may grant certificates to individuals who meet predetermined qualifications.
- These qualifications are generally set by professional associations (for example, the National Commission for Certification of Crane Operators), or by industry and product-related organizations (for example, Novell Certified Engineer).
- Certification is typically an optional credential; although some state licensure boards and some employers may require certification. For many occupations, more than one organization may offer certifications.

# Apprenticeship

- Registered Apprenticeship is a proven approach for preparing workers for jobs while meeting the needs of business for a highly-skilled workforce. It is an employer-driven, “learn while you earn” model that combines on-the-job training, provided by the employer that hires the apprentice, with job-related instruction in curricula tied to the attainment of national skills standards.
- The model also involves progressive increases in an apprentice’s skills and wages.
- Apprenticeship is a flexible training strategy that can be customized to meet the needs of any business. Apprentices can be new hires, or businesses can select current employees who need skill upgrades to join the apprenticeship program

- Public Law and Assistant Secretary of Defense Policy established separation pay to monetarily assist certain involuntarily separated or released members from active duty
- Eligibility and amounts are determined by the type of separation (based on SPD Codes)
- Personnel medically separated for a disability incurred in a combat zone or from combat-related operations may be entitled to an enhanced disability separation pay
- May also be eligible for final pay at separation that would include any earned entitlements and pay for accumulated leave. That amount will be reduced by any outstanding balances on advance pay you may have received, along with unearned bonus recoupment and other debts you've incurred throughout your Service

# 43. Separation Pay, cont'd

- **Separation Pay**

**NOTE:** Service members who received separation pay need to review the law (10 U.S. Code §1174(h)(2)) and policy (Department of Defense Instruction 1332.29, Section 3.6.2) governing Separation Pay, which include guidance on the possibility for recoupment by the VA if the member subsequently becomes eligible for disability retirement pay.

The Directive-Type Memorandum (DTM) on Implementing Disability-Related Provisions of the National Defense Authorization Act of 2008, dated March 18, 2008, contains information on separation pay for those medically separated.

# 43. Unemployment Compensation (UCX)

- Transitioning military members may be eligible for unemployment compensation
- Different states have different requirements and rules for eligibility
  - You should contact the state where you will be looking for work
  - Receiving unemployment while you are looking for work will help provide financial stability in the event it takes a long time to find a job
- **Due to NDAA 16, those using Post 9/11 GI Bill are no longer able to draw unemployment compensation at the same time**

# 44. Unemployment Compensation (UCX), cont'd

- Visit and register at your local America Job Center (AJC)
  - Staff will assist you in filing your claim

  - This links to each state where you can locate your specific UCX information

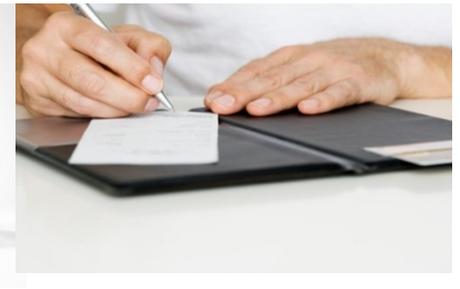

# 45. General Money Management

- **General money management, saving & investments**
  - **Money management encompasses how you handle monetary assets**
    - The basic rule of thumb is to have at least three to six months living expenses in a savings account in the event of lost wages and other emergencies
  - **Transition is a good time to set some financial goals**
    - To reach these goals, you'll want to have some helpful tools.
    - Businesses use financial reports to track their financial condition, these same reports can help you determine your financial condition
    - Two documents that may be helpful are balance sheet and a cash flow statement
    - **12 Month Post Separation Budget (TAP & CAPSTONE)**
    - Airman & Family Readiness Center Personal Financial Readiness Counselors 719-556-6141

# 45. General Money Management, cont'd

- General money management, saving and investments
  - Balance sheet is a snapshot of your current financial status and includes information on what you own (assets), and what you owe (liabilities)
    - Helps you calculate your net worth and provides a starting point for financial goal setting
  - Cash flow statement is used to summarize income and expense transactions that have taken place over a specific period of time, such as a month or a year
    - Tells you where your money came from and where it went

# 45. General Money Management, cont'd

- General money management, saving and investments
  - Once the balance sheet and cash flow statement are complete, you're ready to construct a working spending plan (budget)
  - While a budget is a requirement for all transitioning Service members, your spending plan will also help you navigate the changing financial situations you'll encounter as you transition from military to civilian life
    - A spending plan is a living document and should be reviewed and updated as circumstances change
  - **A&FRCs can assist with spend plans 719-556-6141**

# 46. Personal Savings and Investment

- **Banks and credit unions**

- Offer savings accounts designed to reach your short- and long-term financial goals
- When opening a savings account, look for an FDIC or National Credit Union Association (NCUA) - insured savings account that offers competitive interest rates
- Check withdrawal and deposit guidelines carefully
  - Some institutions limit the amount of free transactions available
  - Generally, savings accounts do not provide high interest earnings on deposits
  - For higher interest earnings, may want to invest in a variety of products that improve earnings on investment

**Continued next slide**

# 46. Personal Savings and Investment, cont'd

- **Four common types of investments:**
  - **U.S. Savings Bond**
    - Companies, cities, states, and the federal government sell bonds to help raise money to run their particular institutions

    - Prior to investing in a bond, research the issuer and understand the terms of the bond

**Continued next slide**

# 46. Personal Savings and Investment, cont'd

- **Four common types of investments:**
  - **Certificate of Deposit, or CD**
    - Issued by commercial banks, and savings and loans
    - CD differs from a traditional savings account in that it has a specific fixed term, generally a minimum deposit amount, and typically a fixed interest rate
    - When a CD matures (reaches the end of the specified term of deposit), the owner can withdraw the money and any accrued interest
    - CDs generally offer a slightly higher interest rate than a standard savings account

**Continued next slide**

# 46. Personal Savings and Investment, cont'd

- **Four common types of investments:**
  - **Stocks**
    - Purchase an ownership share in a company

    - Most investors purchase stocks through a broker
    - Broker transactions can take place face to face or online via an online brokerage firm
    - Broker fees vary, be sure to do your research before committing
      - Can also save on broker fees by buying some stocks directly from the issuing company

**Continued next slide**

# 46. Personal Savings and Investment, cont'd

- **Four common types of investments:**

    - May invest in stocks, bonds, money market instruments, or a combination of multiple securities categories
    - Key advantage to a mutual fund is professional management of the investment portfolio to match the fund objectives
