

STARBASE Peterson After School STEM Program

STARBASE Peterson welcomes 4th and 5th grade students for two hours of FREE STEM enrichment during after school hours! This is a great opportunity for those who are virtually learning and would like some hands-on activities! Here is some important information for the after school program:

- The program will be from the hours of 3-5pm from September 23rd- September 25th
- STARBASE is limited to a total of twelve students in order to comply with social distancing
- Spots are on a first come, first serve basis
- If for any reason the student can no longer attend, STARBASE must be notified 24 hours in advance to give opportunities to those on our waitlist
- Once the twelve spots have been filled, students will be put on a waitlist and have the possibility of participating during a future week, or filling any cancellations
- Parents/guardians of the students are responsible for transportation to and from STARBASE located on the Peterson Air Force Base
- Students must bring a mask to wear when adequate social distancing is not possible
- Before entering class, students will have their temperature checked
- STARBASE is NOT affiliated with the student's school
- Students must have access to PAFB

We are very excited to have students for this after school program! If you are interested please contact the office manager, Rachel, for additional information at rmstarbasepeterson@gmail.com or call 719-556-9538 or 719-556-9500
